

1

Skills

All students will develop essential life skills such as travel training, self-care, and communication, helping them gain independence and confidence for adulthood.

2

Pathways

Students will explore a range of future pathways, including education, training, and employment, through talks, visits, and career fairs, ensuring they make informed decisions.

3

World of Work

Students will gain employability skills through workshops, employer talks, and work experience, preparing them for the workplace and giving them practical job-related insights.

5

Guardians support

We provide guidance and support to parents and guardians, ensuring they are informed and involved in their child's transition. Through regular communication, workshops, and meetings, we work together to prepare students for their next steps.

4

Transition

Each student will receive tailored transition support, including personalized action plans and external agency collaboration, ensuring a smooth move into adult life, further education, or work.

01

Careers Programme

What is the aim of our career program?

Our careers program provides a structured framework for students to explore various career pathways. Through workshops, employer encounters, and hands-on experiences, students gain the guidance needed for informed decision-making. This adaptable program fosters a supportive environment, empowering students to build essential skills and confidence as they prepare for adulthood.
